VeriScan Flexibility

IDScan.net offers the only AI-powered ID verification platform that works on all commonly used scanners. Whether you are looking for basic age verification, or want to integrate more in-depth ID authentication, VeriScan makes things straightforward and easy to use.

Thales QS2000

Inexpensive with outstanding passport reading capabilities for those with an

Panasonic FZN1 Toughbook

Durable, great for front door checks and exterior scanning, but limited in full authentication capabilities.

Thales AT10000

Great camera for image capture and full screen scanning for passports. But image flipping can slow down line management.

E-Seek M500

Perfect for dual-sided ID scanning and offers precise authentication. However, needs a table or kiosk to stand on.

Because VeriScan is used by businesses across a variety of industries, our solution is meant to be flexible for all scanning applications. Our sales team can help you select the right hardware and software match to meet your needs.

About IDScan.net
