

ID Scanning Hardware

1

Navigate To Our Driver Library

Visit the IDScan.net website using the QR code, or by typing idscan.net/id-scanning-hardware-driver-downloads into your search bar.

2

Download the Driver For Your ID Scanning Device

Scroll down until you see your device. You will then download the specific driver.

3

Install Drivers

Run the driver installation file you just downloaded. In some cases, you may need to extract the installation files from a zip file.

4

Start Your Software

You should be prompted to use the scanner the first time you launch **VeriScan** or **WizzForms** after installation. If not, ensure the scanner is selected in the software.
